Exterior Wood Porch System

Parts are kiln-dried softwood and ready to paint. Rail is fingerjointed. Order top rail fillet separately. Newels are laminated. See option for balusters and newels dip-treated with "Wood-Life". Top and bottom of balusters, bottom of newels and ends of rail must be sealed (primer is not a seal) after cutting to size and BEFORE installation. If staining use a minimum of three coats of polyurethane or marine varnish.

Balusters	H-Series	Size	Turning Length
	H207	1-5/8" x 7.5"	4-7/8"
	H212	1-5/8" x 12"	
	H218	1-5/8" x 18"	8-1/4"
	H224	1-5/8" x 24"	
	H232	1-5/8" x 32"	14-3/4"
	H236	1-5/8" x 36"	
	H312	2-5/16" x 12"	8-1/4"
	H318	2-5/16" x 18"	
	H324	2-5/16" x 24"	
	H332	2-5/16" x 32"	14-3/4"
	H336	2-5/16" x 36"	
	H412	3-1/4" x 12"	8-1/4"
	H418	3-1/4" x 18"	
	H424	3-1/4" x 24"	
	H432	3-1/4" x 32"	14-3/4"
	H436	3-1/4" x 36"

Custom Exterior Wood Balusters

Choose a design listed below or send us a picture and we can turn it into your "dream porch". We can manufacture balusters in any wood specie. All of our balusters can be treated with "Wood-Life" preservative as an option. To extend the life of your wood balusters please finish them after cutting to size and before installation. We recommend using wood balusters with our urethane top and bottom rails shown on page 31 and at the bottom of this page.

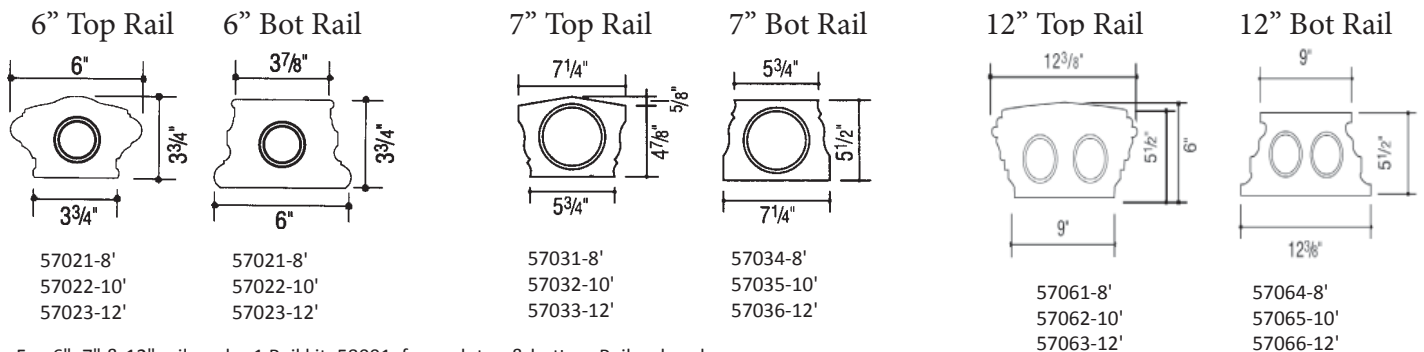

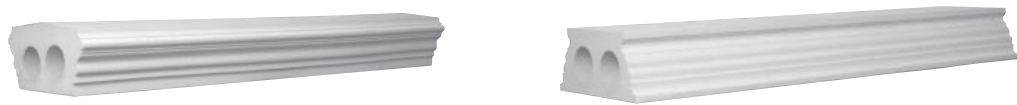

Promenade Baluster Series

Round Wood Columns - Paint Grade Exterior

Shafts are paint grade and manufactured from solid staves with finger-joint and/or edge gluing. Caps & bases are polyurethane (wood as an option with no warranty)

Limited One year warranty if installed per installation instructions. See store.bbwood.com

Fluting begins about 4-1/2" below the neckmold, and ends approximately 8" above the base. Custom fluting is available.

Structural Load		Inside Dimension	
Diam	Lbs.	At Bottom	At Top
6	2000	3-1/8"	1-3/4"
8	3200	4-3/8"	3-1/2"
10	4200	6-3/4"	5-1/2"
12	5100	9-3/8"	7-1/8"

Caps & Bases for Wood Round Columns

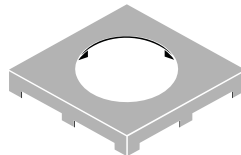

Standard caps and bases are polyurethane. Wood caps and bases are available but column warranty is void. Aluminum plinths should be used with wood bases.

Poly Standard Base

Quick Mount & Aluminum Plinths

An aluminum plinth (fasteners not included) or a Quick-Mount Fastener should be used on all wood porch posts.

The Aluminum Plinth is a quick and easy way to ensure that your posts are installed correctly. The plinth protects the post from moisture and connects it to the structure.

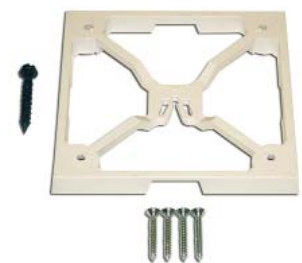

The Quick-Mount™ Porch Post Fasteners provide a ventilating moisture barrier between the post and ground. They prevent water damage and increase the life of the post by many years. They can be installed directly into wood or concrete and they securely fasten the post in seconds. Please note that this item is not suitable for applications where special anti-uplift requirements apply.

Aluminum Plinths	Item
4" (3-1/4" wide)	1070
5" (4-1/4" wide)	1080
6" (5-1/4" wide)	1090
