

# TRILENNIUM<sup>®</sup>

MULTI-POINT LOCKING SYSTEMS

Protect your home. Preserve your style.

# ONE

Strength. Security. Performance. Peace of Mind.

Trilennium® delivers 3x the strength, 3x the security and 3x the performance with one multi-point locking system, resulting in maximum peace of mind and homeowner satisfaction.

Operating as one, all three bolts engage when the door is closed, fighting deflection even when the door is unlocked.

One movement of the key or thumbturn activates all three bolts, drawing the door into perfect alignment with three true deadbolts that cannot be compromised. Plus, it's easy to use. Just one turn of the lever disengages all three bolts for easy operation time after time.

Trilennium's superior strength works when others fail, achieving the industry's highest ratings for structural and forced entry testing. A solid, one-piece I-Beam runs the full length of the lock. This not only increases the strength and precision of the lock, but also strengthens the door edge, preventing warping over the life of the panel.

## How Trilennium® Works

When activated, each Trilennium® bolt becomes a true deadbolt that cannot be compromised.

One simple turn of the key or thumbturn engages all three bolts for perfect alignment and added performance.

With the panic release feature, just one turn of the lever disengages all three bolts at once for easy operation.

A stronger multi-point lock with I-Beam construction means ultimate peace of mind for you.

## CHOOSE YOUR LOCK

With multiple options to choose from, there is a Trilennium® Multi-Point Lock to fit every entry system need.

### TRILENNIUM® 3000

Multi-point security for standard door panels (Single and French active panels).

### TRILENNIUM® 3070

Features narrow 7/8" profile for "proud edge" door panels (Single and French active panels).

### TRILENNIUM® 3020

French Mortise Lock

For the inactive door in French units, the 3020's I-Beam enhances system strength.

### TRILENNIUM® 3500

Five-Point Lock

Delivers enhanced security for French doors with five locking points (French active panels).

### TRILENNIUM® COMPATIBLE ASTRAGAL

Enhance protection against leaks and drafts with our cost-efficient Trilennium Compatible Astragal (3000 and 3070 only).

Endura's new TriLast™ finish is available for Victorian Bronze and Satin Nickel for Eclipse, Pinnacle and Eclipse Grip handsets. This finish passes the toughest BHMA standards for protection against corrosion in coastal and other environments, and is now backed by our new TriLast™ Limited Lifetime Warranty on handsets with TriLast™ finish.
