

Rogue Valley Door provides exterior and interior fire doors with a 20, 45, 60 or 90-minute fire rating on our most popular styles, including up to 3/6 x 8/0 single doors or 7/0 x 8/0 double doors.

■ Fire-Rated

Doors play an important role in limiting the danger and damage from fires. At Rogue Valley Door, we not only take great pride in meticulous craftsmanship and artistry, but also in building doors that provide you with today's most advanced fire safety standards.

Our most popular door styles - including up to 3/6 x 8/0 single doors or 7/0 x 8/0 double doors - can be built to comply with all code requirements.

By constructing doors with 20, 45, 60 or 90-minute fire ratings and beautiful, substantial veneers, we're proving that safety and style can come together beautifully.

FIRE RATED DOOR DESIGNS

Rogue Valley Door provides exterior and interior fire doors with a 20, 45, 60 or 90-minute fire rating on our most popular styles, including up to 3/6 x8/0 single doors or 7/0 x 8/0 double doors. Rogue Valley Door consistently provides customers with the best products in the industry and these fire-rated doors are no exception. The doors match their exterior and interior counterparts visually, allowing our customers to carry this beautiful line throughout their home, while at the same time complying with code requirements for the door between their house and garage.

Pine and knotty pine doors are not available with a 45, 60, or 90-minute fire rating. They are only available with a 20-minute fire rating.
