45, 60 and 90 minute Fire Rated Flush Doors

Last November, we received a substantial price increase from our flush and molded fire door supplier. The increase was effective immediately, with no advance notice.

45, 60 or 90 minute fire-rated doors must be quoted on a per job basis. All fire-rated product pricing in any price list predating the date of this newsletter is withdrawn and is no longer valid.

Thank you for your support as we work through this significant change. Please do not hesitate to contact us with any questions or concerns.
