Our Secret...

to Becoming the Largest Manufacturer
of Wood Doors in the US?

Location, location, location.

By all accounts, you'd be hard-pressed to find a more beautiful place than the rain-drenched forests of Southern Oregon. But then, we're hardly objective. We've called this verdant corner of the Pacific Northwest home for decades. In fact, we grew up here—playing, camping and rafting our way from one side of these woods to the other.

So, not surprisingly, we've developed an undeniable appreciation for the land itself. And for the caliber of hand-crafted doors we're able to produce when the planet's finest natural resources are paired with the world's best craftsmen.

In fact, it's that unique union which has allowed us to become the largest manufacturer of wood doors in the United States. Each and every piece we produce is made right here. What's more, because we live, work and play in the same forests that provide for our livelihood, we're equally passionate about adhering to strict, sustainable, green harvesting practices. All so that both these forests and our company will be around for our grandkids to enjoy. Just like we do.

Custom Order Wood Species
All of the doors listed in this literature are available in a variety of species on a special order basis.

In Stock Ready to Ship
Various standard sizes of the doors listed in this literature are in stock and ready for immediate shipment.

Filmed Glass
All of the stock doors listed in this literature come standard with film on the glass. This film eliminates the need to mask the door before painting. This film is not standard on special order doors, however it can be ordered on these special order doors.

Primer
All fir doors shown in this literature can be ordered pre-primed. Give us a day or two and we will apply two coats of primer to any of our in-stock fir doors. Special order primed doors are available as well and are typically made from poplar and/or MDF.

Chalk Board Door Designs

Our multipurpose door designs appeal to your everyday needs. These functional doors come with magnetic chalk boards—perfect for the active family and are available in both fir and knotty alder.

Bi-fold Door Designs

Beautiful and functional, our closet doors provide classic styling, and durable construction to stand up to everyday use. Bi-fold pine panel doors are stocked with a raised panel design. They're the perfect solution for full-sized closet openings, laundry rooms or other storage areas.

rustic pacific coast alder exterior & interior

Rustic Alder Door Designs

The Rustic Pacific Coast Alder collection features classic exterior and interior door designs with a subtle sophistication and unique style all their own. These beautiful knotty alder doors are rich with character and traditional appeal, boasting exposed knots, color variations, and mineral streaks.

With simple design characteristics and a dramatic appearance, these doors often are complimented with details like exposed hinges and latches, as well as heavy duty doorknobs or handles.

Fire Rated Door Designs

Rogue Valley Door provides fire doors with a 20 minute fire rating on all of our popular styles. These doors match their exterior and interior counterparts visually, allowing our customers to carry this beautiful line throughout their home, while complying with code requirements for the door between their house and garage.

In addition to our popular 20 minute fire rating doors, 40, 60 and 90 minute designs are available by custom order.

custom doors

What is the difference between a tract house and a custom home? Many things. But one of the simplest ways to dramatize a home is with well designed interior and exterior doors from Rogue Valley Door. Among the finest quality wood doors available, Rogue Valley Door has a large selection of doors in stock and ready to ship. And for architects, builder-developers, or homeowners who require custom doors, we have amazing capabilities to match your specifications and deliver within weeks. Put the finishing touch on your unique home with highly complementary Rogue Valley Door.

Glass Treatments

available options

White Laminate

A multifunctional safety glazing material manufactured by sandwiching a white film between two clear glass panes.

Satin

Protect your privacy while allowing the light in. This translucent glass offers a semi-opaque effect.

Clear

A classic clear window pane treatment that is fully transparent.

Mist Lite*

A tight criss cross treatment on a clear glass pane that is mostly opaque.

Monumental

A textured, fairly opaque, clear glass pattern.

Grey

A clear glass treatment with a subtle grey hue that is fully transparent.

Delta Frost

A classic thick frosted glass treatment with a vein-like texture that is fairly opaque.

Rain

A vertical treatment resembling raindrops that is fairly opaque.

Seedy Baroque

A clear glass with a scattered appearance and a baroque wash with asymmetrical curves.

Bronze

A clear glass treatment with light bronze undertones that is mostly transparent.

Wood Species

available options

Alder

Ash

Birch

Cherry

Fir

Custom Choice

Glass Treatments

available options

Reeded*
An elegant vertical line treatment that is fairly transparent.

Bevel
A clear, tempered glass with a striking beveled edge.

Evergreen
A clear glass treatment with subtle green highlights that is mostly transparent.

Obscure-P516
A pebbled or "orange peel" treatment that is mostly opaque.

Glue Chip
A stylish frosted treatment that is fairly opaque.

Bamboo*
A unique pattern with vertical bamboo reeds and leaves. Fairly opaque. Not recommended for multi-light doors as the bamboo reeds will not line up.

Double Glue Chip
Glue chipped twice to obtain a denser, more concealing look than the standard glue chip.

Heavy Water
A clear pane with a distorted treatment that gives the illusion of being under water.

Solar Bronze
Reduce incoming light and protect your privacy. From the outside, this glass gives a mirror effect, while from the inside it gives a clear view of the outdoors with a slight bronze tint.

Cross Reed*
Vertical and horizontal reeds intersect in this clear, semi-transparent glass.

Sycamore
Leaf impressions offer soft obscurity while allowing an abundance of light to travel throughout the room.

Taffeta
Reminiscent of taffeta fabric, this radiant glass offers privacy without obscuring natural light.

IG w/Bronze GBG
Insulated glass divided by a bronze internal grid to simulate a door with multiple lights.

IG w/White GBG
Insulated glass divided by a white internal grid to simulate a door with multiple lights.

Safety Back Mirror also available

*These are NOT recommended on Multi Light Doors.
