# Woodfold Panel Selections

## Natural Hardwood Veneers

Woodfold's hardwoods represent the most popular natural hardwood species used today. We insist on select grade veneers laminated to an engineered core to ensure excellent dimensional stability. Clear finish is standard, however custom stain finish service is always available. We simply ask that you supply physical color samples for matching.

Birch

Maple

Oak

Cherry

Mahogany

Walnut

# Woodfold Decorative Options

## Custom Logos

Custom designed and applied logos, trademarks or corporate images may be applied to Woodfold doors by implementing newly developed manufacturing techniques. To ensure the best reproduction possible, please provide high-quality artwork and contact your distributor or our office for more details about acceptable file formats.

## Decorative Laminates

High-pressure decorative laminates may be specified for application on all Woodfold doors. Woodfold's wide selection gives you an exceptionally diverse choice. As a rule, high-pressure laminates are specified for their durability and ease of maintenance. Typical installations include hospitals, laboratories, restaurants, etc., where these features are essential.

Rather than offering a limited quantity of standard colors, Woodfold's custom service allows the selection from all nationally recognized brand laminates. Please advise pattern number and manufacturer's name such as:

## Wall Coverings

You can enhance your accordion doors or room dividers with specified wall covering material, which further enable us to match and complement the interior wall selections. Additional details on this custom service are available from Woodfold by contacting your distributor or our office.

## Special Hardwood Veneers

Other exotic and special hardwood veneers are also available. Please contact your distributor or our office for further details.

## Murals

Available in a wide range of sizes, decorative murals provide an additional option for residential or commercial room dividers. An example is shown below.
